WE HAD AN IDEA

Express Kitchen Store is backed by nearly 50 years of top-level industry experience. Having spent literally decades working with customers, tradespeople and suppliers, it became apparent to us that something was missing. Why all the compromise? We believe that people looking to buy a new kitchen should have access to everything: the best quality, the best prices and the best service. We build all our kitchens at our factory in Devon. We work with both retail and trade customers to help design and build dream kitchens for less.
